

Whole-House Paint Schedule

Every room, every surface, one order.

House _____ Date _____

Paint is cheaper by the gallon than the quart and colors are mixed to order, so working the whole house out at once is worth an hour. One trip, one batch, no color drift between rooms.

[illegible]

TOTAL GALLONS

TWO THINGS THAT CATCH PEOPLE OUT

- Ceilings and trim are separate lines. They are different paints in different sheens.
- Buy each color in one batch and box it. Two batches of the same code can differ.
